Environmental Policy Statement

Concord Enviro provides water and wastewater treatment services for our clients in the manufacturing industry and sea water desalination for our customers for their onboard and/or industrial requirements. Considering this the company's environment policy aims to reduce the impact of its operations by ensuring the compliance of all environmental legislations, ISO 14001, and best practice in the industry.

This goal of promoting sustainability and environmental awareness is achieved by.

- Compliance with all the environmental legislations, standards, and codes of practice.
- Ensure adequate awareness of the environmental impacts of various operations amongst the staff through regular training and drills.
- Pursuing a program of continuous improvement by establishing a framework for the continuous monitoring of environmental objectives and KPI's.
- Integrating environment aspect impact factors into the business decision making process ensuring sustainable development.
- Invest and evolve opportunities to ensure mitigation of environmental impacts.
- Establishment of environmental management system with emergency procedures to deal effectively against any incidental environmental Hazards due to the firms' operations.

Mr. Prayas Goel (Director)
